

Results builds upon their success in Memphis with the addition of a fourth physical therapy clinic.

The first quarter of 2010 has been a busy one for Results Physiotherapy with the opening of several clinics across the state. With the unique model of employing only licensed physical therapists to treat patients, the hands-on treatment philosophy, and industry leading patient outcomes Results Physiotherapy continues to grow and provide its services to the ever growing population of Tennessee.

The Results Physiotherapy - SouthWind location is included in the list of new openings in 2010 and is the latest addition to serve the Memphis area, bringing the area total to four locations. The clinic, just off Winchester Road at Champion Hills Drive, is conveniently located to serve the south-eastern metro area of Memphis including Germantown and Collierville as well as northern Mississippi residents in Olive Branch.

results Physiotherapy - SouthWind
3725 Champion Hills Drive, Suite 2050
